

Medidata Corporate Overview

Powering Smarter Treatments and Healthier People

Medidata is leading the digital transformation of life sciences, creating hope for millions of patients. Medidata helps generate the evidence and insights to help pharmaceutical, biotech, medical device and diagnostics companies, and academic researchers accelerate value, minimize risk, and optimize outcomes.

Our Pioneering Solutions and Services

The **Medidata Platform** is the life science industry's only unified platform addressing the holistic clinical research process from start to finish, focused on **clinical trial operations**, **data management**, and **clinical trial analytics**. Medidata's focus on **clinical trial operations**, **data management**, and **clinical trial analytics**, and **Medidata Clinical Data Center (CDC)** is transforming the clinical trial experience for company **stakeholders**, including patients, sponsors, CROs and research sites.

Data Management streamlines data acquisition, aggregation, and review to enable data managers to deliver high-quality datasets and reach database lock faster.

Clinical Operations drives efficiency, agility, and decentralization of study execution with integrated site, investigator, and sponsor workflows, embedded analytic insights, and real-time data availability.

Medidata AI combines unparalleled clinical trial data with a unified platform, advanced analytics, and deep human expertise to help uncover breakthrough insights.

Medidata Connect is a suite of powerful solutions that makes it simple and engaging for patients to participate in any clinical trial – so trials are easier, faster, and produce better results.

Highly specialized clinical trial solutions.

Medidata's dedicated experts ensure customers realize the most value by advising the implementation, adoption, and support of clinical trial technologies. **Medidata Clinical Data Center** is the only technology partner with the expertise to power success through a personalized approach from a trusted team. Navigate the evolving landscape of clinical trials and achieve optimal outcomes with our deep domain experience on the industry's leading platform.
